

SEMINARS

R/C BUILDING AND SLABS SOFTWARE

Model courtesy of John Romanous + Assoc., NSW

We are pleased to invite you to join our 2011 seminar that will focus on the latest developments on our popular R/C Building and SLABS software.

Two sessions will be held for each seminar:

Session 1: SLABS modeling method recap; new features: frequency analysis, new 3D viewer, elastic spring type, Ast-zone...

Session 2: R/C Building modeling recap; wind and earthquake design, spectral method improvement; new Revit link; design for Eurocode 2 and 8; isolated wall in punching shear check; wall design; inclined column; ductility factor; overturning moment...

Professional Development:

Attendees may be credited up to 14 hours towards IEAust Continuing Professional Development (CPD) requirements of 150 equivalent CPD hours required of members every 3 years.

Dates / Times:

- **Melbourne - Friday 18th November:** 9:30am to 5pm (registration at 9:00am)
