

SEMINARS

We are pleased to invite you to upcoming seminars that will focus on the changes made in the **AS3600-2009 Concrete Structures** design code, and how these changes are incorporated in the new version of SLABS, R/C Building and R/C Column 2010.

Other topics include: Building models using the Geometry Line concept, Long-term Deflections by different methods, Deep Beam Design, Soil-Structure Interaction.
